sterilization

Full effect sterilization and virus removal Healthy breathing, from now on

UVC+HEPA combined, it has excellent bactericidal ability and reduces the risk of infection.

Harmful gas

Pollen allergen

Some bacteria

Partial virus

80m³/h

Particulate CADR

9.5m²

Applicable space

Effectively remove bacteria,
The removal rate $\geq 99\%$

According to the basis and method: GB 21551.3-2010 special requirements for antibacterial, bactericidal and purifying air purifiers of household and similar electrical appliances, the test results are as required.

UVC +HEPA double effect anti-virus purification

The sterilization effect of UVC+hepa lamp tube is stronger, and it can kill the health affected coliform, Staphylococcus aureus and natural air bacteria in a short time.

Before irradiation

After irradiation

High quality filter H12 multi-layer purification

The drum integrated 360 filter and high-efficiency HEPA H12 composite filter not only have low wind resistance, but also have high dust capacity. They can effectively remove fine particles / formaldehyde / toluene / TVOC and other pollutants, and the filtering effect can reach 99.5%

80^{m³/h}

Particulate CADR

99.55%

H12 efficiency

Strong air path system output a lot of fresh air every minute

The strong neck air path combination system has sufficient power to realize large circulation of air in small space and double the purification speed.

New big Air outlet grille ○

Upper diversion air duct ○

High efficiency brushless
DC motor ○

Large size centrifugal fan ○

Lower diversion air duct ○

H12 composite high
efficiency filter ○

Upgrade anion technology Fresh breath of the forest

The multi-stage pressurization technology is adopted to produce a large number of negative ions with small particle size, with a concentration of 100 million levels, improve the surrounding air quality and bring fresh breathing in the forest.

Not just air purifier

Mist free humidification

Fog free humidification adopts the principle of cold evaporation humidification, which is fog free and dust-free. It sterilizes the inhaled air, evaporation water source and filter screen, keeps clean humidification from the source, and takes good care of sensitive people.

400ml

Water tank capacity

>20 hours

Working hours

Low noise mute

As quiet as breathing

Sleep mode starts, automatically adjusts power, quietly filters bacteria and allergens in the air, and provides a quiet sleep environment.

Regarding the location and printing method of the brand logo

Support brand logo customization, printing methods can be divided into three types: laser marking, silk screen printing, and UV pasting. For specific details, please consult the service manager.

Can cooperate with the brand to create a logo effect

Packing method

- 1、 Air purifier x 1
- 2、 Outer carton x 1
- 3、 H12 HEPA filter x 1
- 4、 Instruction Manual x 1
- 5、 App connection description x 1
- 6、 water filter x 1
- 7、 Power cord X 1

Parameters

Model	KJ070A	Voltage	100-240V\50/60Hz
Product size	166*164*270MM	Rated Power	12w
Inner Box Size	210*215*375MM	Applicable area	9.5m ²
Outer Box Size	645*436*390MM	Particulate CADR	80m ³ /h
N.W/G.W	1.77KG/2.2KG	Sensor	Dust infrared sensor
Certification	CE-LVD / CE-EMC / ROHS / CB /ETL+CETL	Product motor	DC motor
QTY	20GP:1170pcs / 40GP:2430pcs / 40HQ:3402pcs / 45HQ:4410pcs		

Packing list

Air purifier x 1

Filter x 1

Water filter x 1

Power adapter X 1

Instruction manual x 1
